

Since 1962

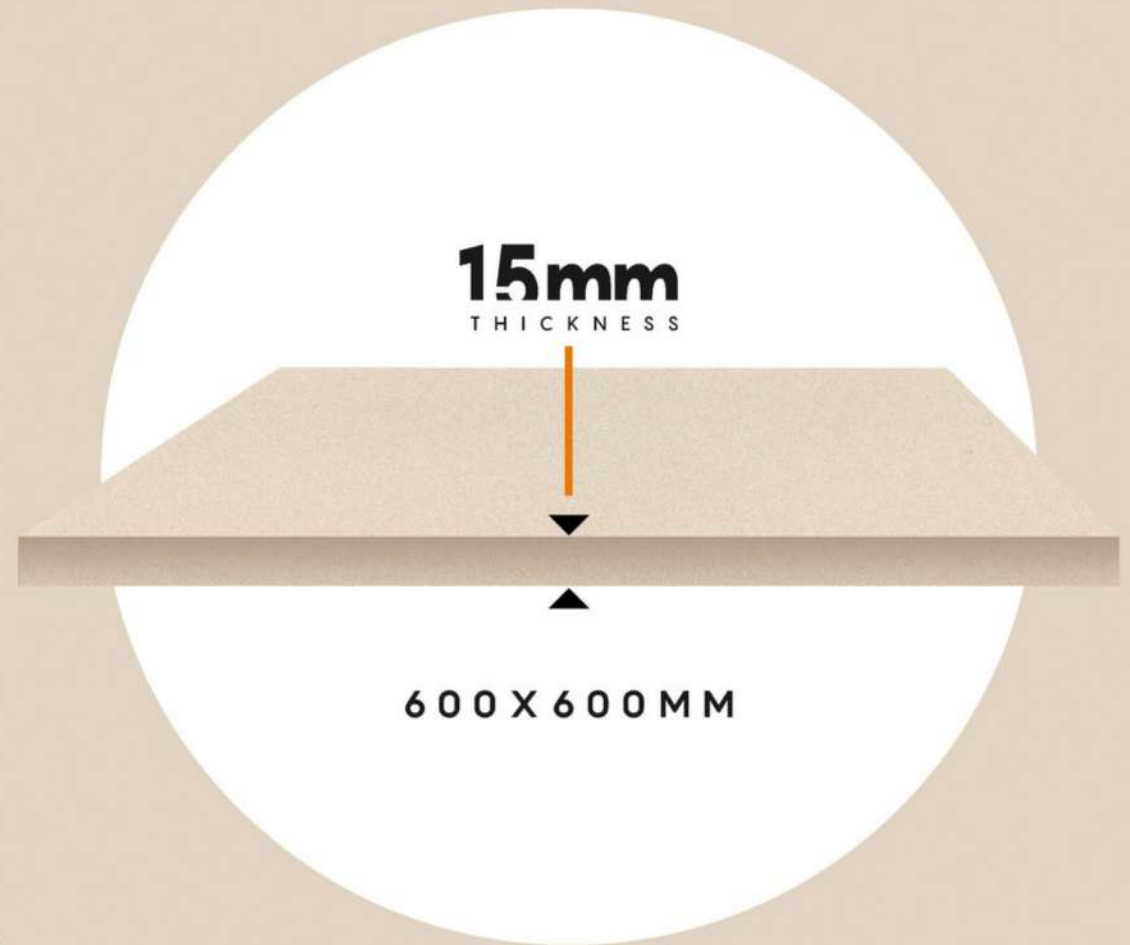

INDIA'S MOST RELIABLE
DESIGNER TILES
& STONE COMPANY

www.thestonepeople.in

NEW DIMENSIONS

We create high-quality full-body surfaces with outstanding finishes that accurately reflect product aesthetics. In terms of the fineness of details and the range of solutions, the finishes and surface treatments are one-of-a-kind, always classic and unique.

COLOUR

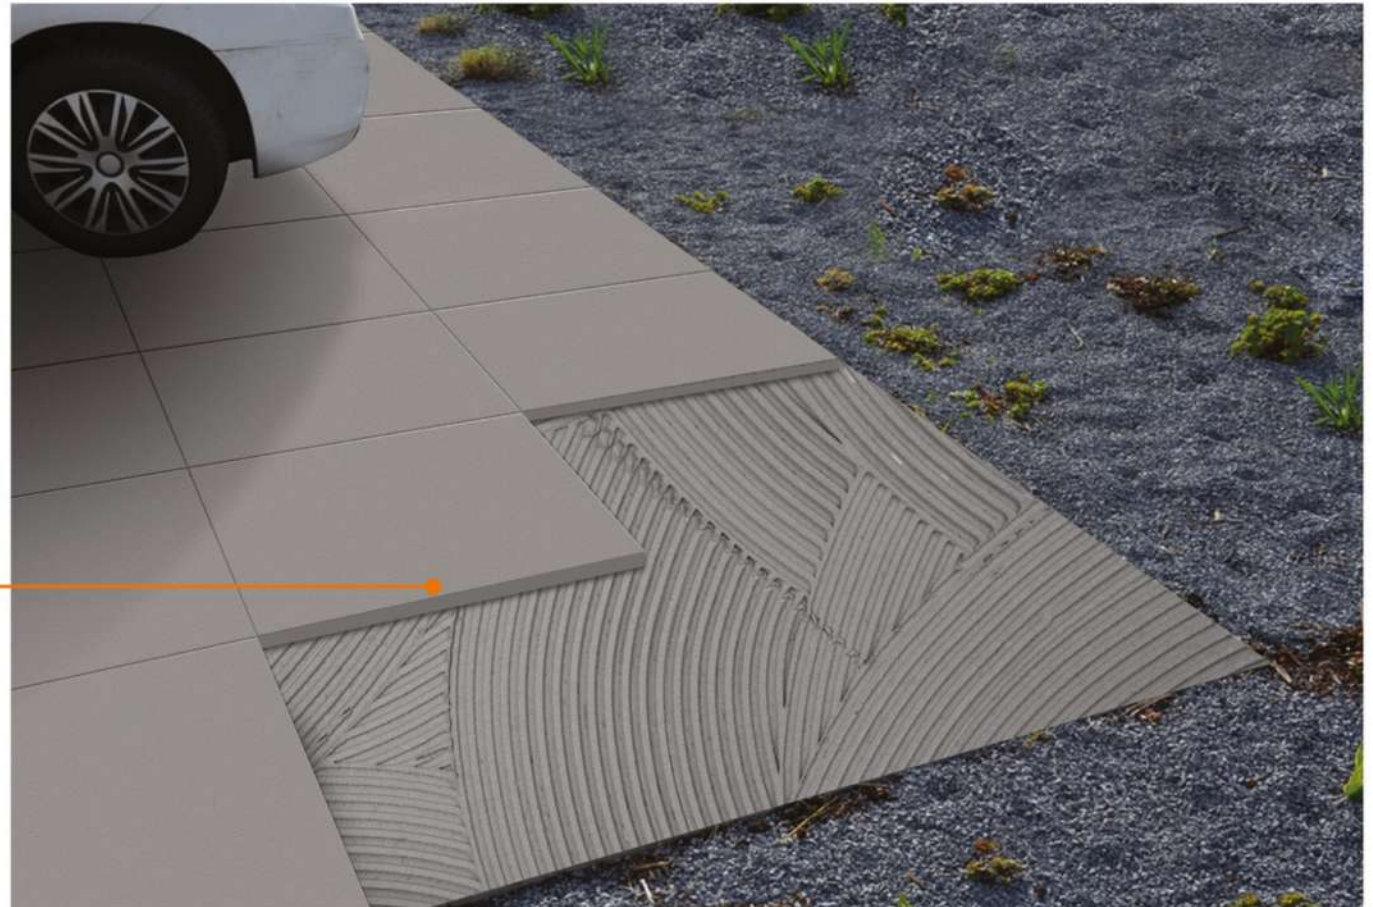

THE FINEST CHOICE TO MAKE THE LONGEST BEAUTIFUL LIFESTYLE

We are introducing a concept of architectural surfaces from our experience of 18 year in manufacturing with the sizes of 600x600mm, 600x1200mm and 800x1600mm that goes beyond traditional ceramics: it allows designers to reinvent design criteria, giving them the utmost freedom and minimal constraints.

The lower weight of the individual tile is a logistical advantage for transportation and handling at the building site, and a practical advantage in special contexts, such as laying over existing surfaces, the shipping industry, and the field of furnishing.

HEAVY TRAFFIC
FLOOR
INSTALLATION

DURABLE CHARACTER

GRAVEL / SAND

Installation with thin joints or joints without grass is recommended for larger areas.

GRASS

These dry-installation systems are very common in outdoor areas. Whether the tiles are to be laid on grass.

RAISED FLOORING

This method is a unique, simple, and attractive approach to close gaps around elevated floors.

SCREED

Screed is a coating of cement and sand applied to a concrete substrate and used to lay various types of flooring.

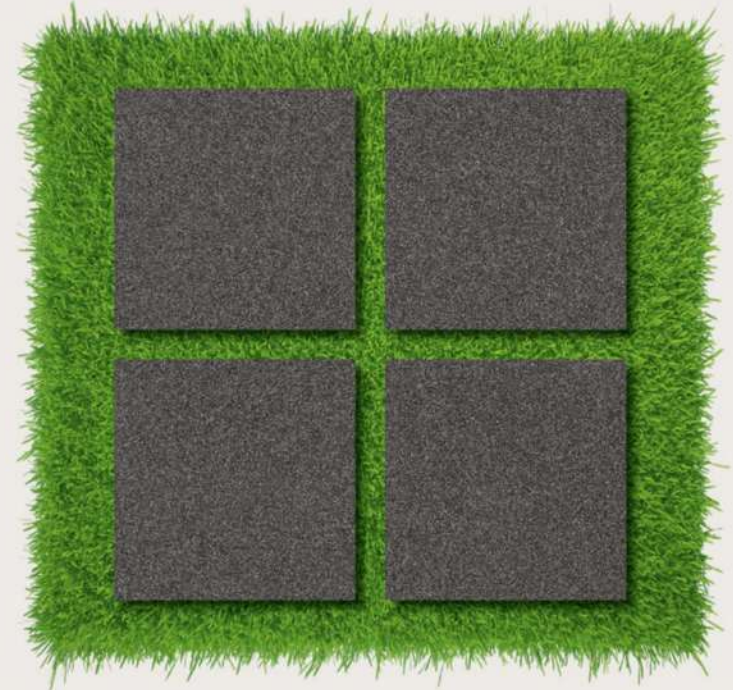

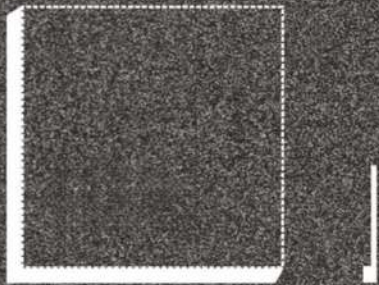

G R A P H I T E

This series design fits seamlessly into contemporary landscapes and architecture, with stylish aesthetics and a wide selection of finishes.
